

Westminster

Projects in Your Area - 2024

Protecting people, property, and our environment through preservation, mitigation, and education.

Mile High Flood District (MHFD) is partnered with 41 local governments to:

- master plan drainage improvements throughout the Denver Metropolitan area
- design, construct, and maintain stream corridors including removal of trash and debris
- provide flood warning services, and develop resources related to improving water quality in our streams

MHFD is pleased to inform you about the projects we are working on in your city.

Capital Improvement Plan (CIP) Projects

This program leverages local government dollars to fund stream projects that reduce flood risk and provide community amenities. In 2024, MHFD plans to work on the following projects throughout the City of Westminster:

- Big Dry Creek and South Middle Branches Hylands Creek upstream of Sheridan Boulevard – *This project is getting ready to go to construction*

Watershed Planning Studies

These streams in the City of Westminster are being studied for improvements:

- Little Dry Creek
- North Fork Walnut Creek
- Hidden Lake and Bates Lake

Restoration and Maintenance Efforts

This program helps local governments manage publicly-owned reaches of regional streams. The 2024 Work Plan includes the following efforts throughout Westminster:

- Big Dry Creek – 112th Avenue to Sheridan Boulevard – *This project is in the final design phase*
- Big Dry Creek at Westcliff Parkway to Wadsworth Boulevard – *This project is currently in construction*
